Liverpool  
England

Dear Mam and dad,  
I am enjoying working  
as a stoker on the Titanic.  
It's hard work keeping a massive  
ship like this going. I feel  
so lucky to have got this  
job with all the competition.  
We have great times in  
3rd class after work drinking,  
singing and dancing!

I was hoping to see  
more of the ship and the rich people  
but we spend most of the time below  
deck.

I have met a lovely lass named  
Annie. She is hoping to get work as a  
maidservant to some of the rich families  
in America. I am in a quandary  
as I love the sea but I think  
I am falling in love with Annie and  
she wants to stay in America.

Will write soon

John
