DE LUXE** NANTES

## **The House in the Trees**

**Creation 1987**

For two days, masons are building a wall, with a garden fence on top of it, around three Sycamore trees on Saint Mihiel bridge.

On the third day, a plumbing company installs water and drainage pipes, water, sinks, the water heater, electricity ...

The next day, removal-men position the furniture in the branches, hanging them like puppets on strings.

Once the apartment is finally completed, five tenants move in and live there for four days without coming down.
